### SUMMARY

I am a Mobile Application (React Native) Developer with 4 years of experience, having built solutions for banking, commercial, and remote-control applications. My skill set includes React Native, JavaScript, and Redux, enabling you to create efficient, cross-platform mobile apps. I am specializing in UPI (NPCI) integration, offline app development, and crafting custom React hooks to optimize performance. Additionally, I have Python Django experience allows me to work on both frontend and backend, developing well-structured APIs to support mobile apps. I have a strong focus on secure data handling, scalable architectures, and delivering high-performance apps, particularly in the banking sector, ensuring an excellent user experience.

### SKILL

- Front-End: React Native, React.js, Redux, HTML5, CSS3, JavaScript (ES6+), TypeScript
- Back-End: Python Django, NodeJS
- Project Management: Jira, ClickUp
- Version Control: Git, GitHub
- Testing: Jest
- Other: REST APIs, Agile/Scrum, CI/CD, CircleCI, Sonarqube

### EXPERIENCE

#### Software Developer Engineer-II (Consultant) - Deloitte

June/23 – Present

- Contributed significantly to projects like retail banking, survey app, event management.
- Coordinated with cross-functional teams including developers, testers, and project managers to plan and execute the release process.
- Reviewed PRs and ensured that all necessary components, such as code changes and release notes, were prepared and ready for deployment/Production.
- Mentored newcomers in React Native stack setup and development.

#### Executive Software Engineer - Soft Suave Technologies

April/21 – May/23

- Integrate third-party API, libraries, and services to enhance app functionality.
- Handle end to end requirement in mobile development.
- Worked on demo and test tasks to get client projects.

#### Programming Intern - Prayogik Technologies Pvt Ltd.

September/20 – March/21

- Worked on models and ORM/SQL query.
- Added authentication and authorization. (JWT).
- Written C++ and Python scripts in microcontroller ATMEGA8L Microchip 8-bit microcontroller

### PROJECTS

#### Bier Communo App

- Role: React Native Engineer.
- Team Size: 5 members (2 frontend, 2 backend, 1 DevOps)
- Responsibilities: Initial setup, app release, Api management, screens development.

#### INDIE Banking App

- Role: React Native Engineer.
- Team Size: 64 members (14 frontend, 10 backend, 3 DevOps)
- Responsibilities: Manage Revamp setup, QA app release, Api management, screens development.

#### Pranos AI App

- Role: Principal Engineer (React Native, Django, AWS).
- Team Size: 2 members (1 Full stack, 1 Embedded system)
- Responsibilities: Revamp Expo App to React Native CLI, BLEPLX sync, Backend development, Frontend development.

#### Yoke Payments App

- Role: React Native Engineer.
- Team Size: 3 members (1 frontend, 2 backend)

- Responsibilities: Frontend development

## EDUCATION

BACHELOR OF ENGINEER (2020) | ELECTRONICS AND COMMUNICATION ENGINEER | TECHNOCRATES INSTITUTE OF TECHNOLOGY  
RGPV University Bhopal
